FreeWheel’s technology has been purpose built to optimally connect buyers and sellers in today’s media ecosystem. Our technology assets span across the sell side and the buy side – and are designed to fundamentally evolve how parties transact. Our leading approach to technology, data, and automation provides the simplicity, efficiency, and optimization that our clients need to achieve their advertising goals – with the transparency, trust, and control they need.

FreeWheel, A Comcast Company, empowers all segments of The New TV Ecosystem. We are structured to provide the full breadth of solutions the advertising industry needs to achieve their goals. We provide the technology, data enablement, and convergent marketplaces required to ensure buyers and sellers can transact across all screens, across all data types, and all sales channels, in order to ensure the ultimate goal – results for marketers. With offices in New York, San Francisco, Chicago, London, Paris, Beijing, and across the globe, FreeWheel, A Comcast Company, stands to advocate for the entire industry through the FreeWheel Council for Premium Video. For more information, please visit www.freewheel.tv, and follow us on Twitter and LinkedIn.

HarrisX is a leading survey research company that specializes in online polling and data collection and focuses on the understanding of internet-connected and smartphone consumers. HarrisX runs the Mobile Insights and Total Communication Surveys, the largest syndicated consumer insights trackers in the U.S. for the TMT space, and the Telephia behavioral tracking app, which bridges the disconnect between consumers' perceived and factual behavior. The HarrisX Overnight Poll delivers results of general population and voter surveys within 24 hours, as well as the 5G Intelligence Platform, which tracks the technology’s adoption among consumers, households, and businesses. During COVID, HarrisX launched the Covid-19 TMT Dashboard, which tracked the impact of the coronavirus pandemic on consumer sentiment and attitudes around the TMT space. As we enter a post-COVID phase, HarrisX is now tracking sentiment around return to office commutes.

Horowitz Research is a full-service consumer insights agency with a mission for delivering insights that inspire change. With more consumer touch points than ever before, brands today depend on understanding how the confluence of technology, diversity, and media impacts their consumers at every point in the consumer journey. Multiculturalism is not just what we do, it’s in our DNA. We have particular expertise conducting research to understand the unmet needs and opportunities for content, services, and technology among Black, Latinx/Hispanic, Asian, LGBTQIA+, Millennials, Gen Z, Generation Alpha, people with disabilities, and other diverse audiences both in the U.S. and internationally.

**LexisNexis® Risk Solutions** differentiates trusted users from cyber threats in near real-time, focusing on the entire customer journey from new account acceptance to authentication to payment authorization. We do this through our global digital identity network, where we take anonymized data relating to devices, user locations, identity information and threat intelligence to build a unique digital identity for each user. This intelligence enables our customers to make quick decisions across each customer interaction and decision flow. Specifically, LexisNexis Risk Solutions uses smart authentication which is invisible to the customer, and despite being virtually frictionless, still blocks fraudsters and malicious bots. Please visit http://www.risk.lexisnexis.com and http://www.relx.com.

The NPD Group offers data, industry expertise, and prescriptive analytics for studios, content distributors, streaming services, retailers, financial analysts, and others in the entertainment industry. NPD's Subscription Video Track consumer-based service provides title-level insights about the movies and TV series content U.S. viewers watch on SVOD platforms Netflix, Hulu, and Amazon Prime. This service combines behavioral insights, household demographic data, and rich, title-level metadata. The TV Switching Study, from NPD’s Connected Intelligence®, tracks changes in the ways U.S. consumers view and buy video content. It’s the data and deep industry insight you need to make data-driven business decisions.

Plume® is the creator of the world's first SaaS experience platform for Communications Service Providers (CSPs) and their subscribers, deployed in more than 35 million locations globally. As the only open and hardware-independent, cloud-controlled solution, Plume enables the rapid delivery of new services for smart homes, small businesses, and beyond at massive scale. On the front end, Plume delivers self-optimizing, adaptive WiFi, cyber-security, access and parental controls, and more. CSPs get robust data- and AI-driven back-end applications for unprecedented visibility, insights, support, operations, and marketing. Plume leverages OpenSync™, an open-source framework that comes pre-integrated and supported on the leading silicon, CPE, and platform SDKs.

**TK Interactive (TKI)** is a software development company. We work with MSO’s to develop custom tools and applications that fuel lead generation, e-commerce, marketing and communication efforts for everything from websites and mobile apps to corporate intranets and legacy data integrations. We also offer two SaaS products, BrandSrv & nSkope.

Our **BrandSrv** product is a marketing automation and brand asset management platform which several MSOs already leverage to enable their marketers to easily create, distribute and track localized communication efforts. The results of these efforts have led to significant ROI – reducing cost, brand and compliance issues while increasing leads, speed to market and overall campaign effectiveness.

TK Interactive’s **nSkope** product is a “Mover” prospect identification and data visualization tool currently leveraged by more than 28% of the Real Estate industry. nSkope uses big data, machine learning and predictive analytics to help identify potential sellers and convert them into clients — before these people have even expressed an outright interest in listing their homes for sale, or even requested a price estimate.
