Circana (formerly IDI and The NPD Group) offers data, industry expertise, and prescriptive analytics for studios, content distributors, streaming services, retailers, financial analysts, and others in the entertainment industry.

Circana’s Subscription Video Track consumer-based service provides title-level insights about the movies and TV series content U.S. viewers watch on SVOD platforms Netflix, Hulu, and Amazon Prime. This service combines behavioral insights, household demographic data, and rich, title-level metadata. The TV Switching Study, tracks changes in the ways U.S. consumers view and buy video content. It’s the data and deep industry insight you need to make data-driven business decisions. Our Broadband America, from Circana’s Connected Intelligence®, data explores key areas of the technology situation in the continental U.S. Discover internet speeds’ effect on disc sales, DVD supply needs, and more.

DataPartners’ marketing data solutions solve the toughest challenges faced by today’s cable marketers. Our cable-centric data strategies – developed in 20+ years serving the needs of cable marketers at every major MVPD – provide reliable competitive insight, dramatically improve response, and empower cable marketers to acquire and retain more video, broadband, mobile, and advanced service subscribers.

Be the MVPD marketing hero! Data may be the least expensive part of any marketing campaign, but it makes the most impact when it comes to campaign success or failure. Our consumer demographic and business firmographic data is custom-tailored for high-performance cable marketing campaigns.

And, DataPartners has created unique offer-specific cable marketing segments you can’t find anywhere else! Want to target consumers who subscribe to a specific wireless provider with an aggressive mobile offer? Or, prospects who use their mobile phones exclusively for all things data and telecom? We’ve got them. Need to find streamers, gamers, and other mega consumers of data for your highest speed broadband offer? We have that too! Want to drill down to prospects who stream video and refuse to subscribe to traditional cable services? We can do it. The options are endless.

Call DataPartners today at 866.423.1818 to discover new and better ways to acquire and retain more subscribers.

**HarrisX** is a technology, analytics, and research company, that leverages data and creativity to drive strategic answers to our client's burning questions. We deliver an agile and iterative research process that combines both syndicated and custom research with deep industry expertise. Our team is nimble, interactive, and applies the latest advances in technology to solve complex problems in real-time.

We specialize in online polling and data collection and focus on the understanding of internet-connected and smartphone consumers. HarrisX runs the Mobile Insights and Total Communication Surveys, the largest syndicated consumer insights trackers in the U.S. for the TMT space, and the Telephia behavioral tracking app, which bridges the disconnect between consumers’ perceived and factual behavior. The HarrisX Overnight Poll delivers results of general population and voter surveys within 24 hours, as well as the 5G Intelligence Platform, which tracks the technology’s adoption among consumers, households, and businesses.

LexisNexis® Risk Solutions differentiates trusted users from cyber threats in near real-time, focusing on the entire customer journey from new account acceptance to authentication to payment authorization. We do this through our global digital identity network, where we take anonymized data relating to devices, user locations, identity information and threat intelligence to build a unique digital identity for each user. This intelligence enables our customers to make quick decisions across each customer interaction and decision flow. Specifically, LexisNexis Risk Solutions uses smart authentication which is invisible to the customer, and despite being virtually frictionless, still blocks fraudsters and malicious bots. Please visit http://www.risk.lexisnexis.com and http://www.relx.com.

TransUnion TruLookup Case Study

Business Problem
Fake identities and fraudulent consumer transactions for one communications company were slipping through the cracks resulting in lost revenue and a negative impact on customer loyalty.

Solution
The company had a conflict between the need for fraud mitigation and a hassle-free customer experience. TransUnion TruLookup™ sorted billions of records from more than 10,000 sources using proprietary linking algorithms to provide intelligence delivered via API which was integrated into the company’s systems and allowed customer service reps to view report results they were already familiar with using.

Results
- Decreased time spent on identity and fraud resolution in the call center
- Reduced friction to deliver a seamless, secure customer journey
- Reinforced confidence in the legitimacy of consumer identities
- Uncovered and tracked hidden fraud patterns

View the case study briefing here.
