CONQUERING CONTENT
How viewers discover new shows, and why they choose some content over others

EXCERPT OF FINDINGS
MVPD, VMVPD, SVOD, AVOD, FASTs, OTA, PVOD....

For TV consumers, this collection of acronyms means one thing: more sources of TV content than ever. And this year sees the biggest jump in the number of sources since we’ve been measuring them.

The pandemic slowed TV production in 2020, but new shows came back with a vengeance in 2021. The number of shows introduced each year is heading toward 600—and that’s just scripted TV.

At the same time, there are signs that the days of virtually unlimited content spending may be coming to an end.

“If we did another 400 hours of content, maybe audiences would be a little happier, but we would make no money.... Would HBO be doing a lot better if it had three more really successful scripted series right now? It’s not clear.”

In this study you’ll learn...

• How viewers discover new shows

KEY FINDINGS
PEAK TV MAKES TV A MORE COMPELLING FORM OF ENTERTAINMENT

Three quarters say they spend more time watching shows they really like than they did in the past.

“More of my total TV time now is spent watching shows I really like.”

2021: 43% Somewhat agree, 27% Strongly agree
2022: 42% Somewhat agree, 33% Strongly agree
BUT IT ALSO MAKES DISCOVERY MORE OF A CHALLENGE

More than half say the volume of shows makes it hard to know where to begin.

― There are so many shows to choose from it’s hard to know where to start."

AS A RESULT, UNIVERSAL LISTINGS ARE BECOMING EVEN MORE IMPORTANT

61 percent say they need a universal listing to search all their platforms in one place.

“I want a universal listing to find shows from any source, live TV or online”

BUT UNIVERSAL SEARCH IS UNDERPERFORMING

Those with universal search capability are only using it about 40% of the time.

How do you find a show or movie when you don’t know what service it’s on?
- Among those who have access to universal search-

- Use universal search feature: 41%
- Search on service-by-service basis: 30%
- Some other method of searching: 29%
IN 2022, VIEWERS ARE HIGHLY LIKELY TO "KICK THE TIRES" BEFORE DECIDING WHAT TO WATCH

Almost two thirds are more likely to choose a show if they can watch a trailer first.

2021:
- Somewhat agree: 40%
- Strongly agree: 18%

2022:
- Somewhat agree: 37%
- Strongly agree: 27%

"I'm more likely to try a new show if I can watch a trailer first"
TRAILERS THAT RUN AUTOMATICALLY ARE AN EFFECTIVE WAY TO “CUT THROUGH THE CLUTTER”

\[ \frac{3}{4} \] of those who discovered a new favorite show via a trailer said the trailer they watched ran automatically – much higher than last year.

How did you see the trailer for this show that became a favorite?

MOST VIEWERS STILL WATCH THEIR FAVORITE SHOWS ON STREAMING PLATFORMS...

...however, for the first time since we launched this study, its share over cable and broadcast did not grow

ONE LIKELY REASON: VIEWERS FOLLOW SHOWS MORE THAN THEY FOLLOW PLATFORMS

This year, new episodes of many of the most popular shows were on live TV before (or at least at the same time) as they were available to stream.

Tell us a new show you’ve discovered in the past year that’s become a favorite.

Top 10 most mentioned shows:

1. Yellowstone
